

## **EVENT SERVICES EXPERIENCED LIST**

*The City does not endorse any of the below vendors. This is **NOT** a preferred list, but rather a list of vendors that have been hired by renters more than three times in the last year to work in our facilities. Please feel free to hire from this list or outside of this list. Should you choose to hire outside of this list and the vendor has not worked at our facility, a scheduled tour is recommended to ensure a successful event.*

## Temperature Control Rentals (Approved Facility Heating Vendor)

### Approved Heater Rentals

For use in the Pickering Barn Hay Barn (rented through TC Rentals see bottom of Page 3)

- **Months of Use by the majority of clients:** November through April (weather dependent)
- **Cost for Barn: \$635** prices may fluctuate based on diesel prices. This includes delivery & pickup.

### HEATING SYSTEM LOGISTICS:

The Hay Barn at the Pickering Barn **does not** have a heating system. Whatever temperature it is outside is what it will be inside these areas – minus the elements of rain, wind and snow! During the colder months of typically November through April, most all of our users do rent a heating system for the Hay Barn. If you wouldn't be ok with your guests sitting outside for your event (without rain, wind, snow, etc – the things that aren't inside the building or within a walled tent) then you'll probably want to rent the heater!

On average, a unit has the success rate of increasing its starting temperature by 15 degrees, plus the additional heat brought in from your guests. It is worth renting for most events during these months. We recommend that the heating unit be running for at least 2 to 3 hours prior to your use of the Hay Barn space at the Pickering Barn.

### What's Approved? How can we heat these spaces?

The Fire Marshall has approved an industrial indirect fired diesel heater. We are not approved to allow standard umbrella patio type heaters or space heaters inside the facilities. It is your responsibility to arrange for the rental, transportation and payment of the unit. Please direct your system questions to the customer service agents. These ARE NOT your standard umbrella patio type heaters or space heaters. They are industrial indirect fired diesel heaters. They will burn approximately 2 gallons of diesel per hour on a moderate setting and will increase the space 10 – 15 degrees every hour, with a 2 hour max. Please direct your system questions to the customer service agents at the company and book the heaters & arrange delivery / pick-up through them as well.

**This is the only heating unit that is both approved & compatible with our ducting system.**

**Pickering Barn Set-Up:** The unit will actually sit outside the North side of the Hay Barn (on the gravel) and the unit's ducting tubes will run through our custom-built wall vent. There is no diesel smell and very limited noise from inside the facility. Once your guests begin arriving you can choose to turn it off completely and can always re-start it again once the music comes back on. Our rental rates during these months are decreased to help off-set the cost of this heater. The Dairy Barn, Creamery, Lobby, Restrooms and Dressing Rooms are heated.

### **HOW TO ORDER THE UNIT:**

It is your responsibility as a renter to call Temperature Control Rentals directly to order this unit. You do not order this unit through the Pickering Barn. You are also responsible for the installation, operation & tear-down of the unit. Since it is a 3<sup>rd</sup> party rental item the City cannot take the liability of handling the unit. We are however typically available to provide verbal assistance. It is best to designate a brother, uncle or groomsmen to be in charge of the set-up, operation and tear-down of this unit. Some groups meet with TC Rentals in advance and some just wing it. It only takes 5 minutes to get up & running and isn't overly complicated.

**Setting up delivery & pick-up:** Temperature Control Rentals only works on the weekdays. Typically they'll deliver all the units for the weekend events on Friday and pick-up on Monday. We do make an exception and provide storage space for up to three units per weekend. The Friday event will determine the time of the delivery for these units. If you're a Friday event please arrange to have the units delivered at the START of your rental access time so that TC Rentals can then hook-up & have the unit running for you...BIG BONUS! If you are a Saturday or Sunday event please just ask them to deliver the unit on Friday between 9:30 am & 11:30 am. All pick-ups should be arranged for Mondays between 10 am & Noon. If your event is on a weekday please ask to have the unit delivered at the START of your rental access time and you'll need to call me to find out the best time for pick-up.

### **Alternate Options:**

You can certainly choose to use the Hay Barn without a heating unit if you prefer. If you do this we advise informing yours guests on your invitations that the room is not heated and to dress appropriately. Some groups have even supplied warm drinks & blankets instead of heat. We do not allow any other heating system including electrical heaters or propane umbrella heaters inside.

### **TEMPERATURE CONTROL RENTALS CONTACT INFORMATION:**

Wade Cohen: 206-900-5533  
Wadecohen678@gmail.com  
2927 182<sup>nd</sup> Ave NE  
Snohomish, WA 98290

**UNIT TO ORDER:** Barn Item #OHV500 420,000 BTU's per Hour 37 Gallon Tank
