PICKERING BARN EQUIPMENT LIST:

Your rental includes the set-up and tear-down of the following equipment by our staff.

The facility IS NOT 100% pre-set. Equipment will be set by our staff during the 1st hour of your rental, not before you arrive. How long it will take to complete your set-up will be determined by the size of your event & the amount of equipment.

**TYPICAL SET-UP EXAMPLE:**

- **Set-up of Facility Equipment Begins:** 2:40 p.m.
- **Renter's Arrive:** 3:00 p.m. to begin decorating
- **Set-up of Facility Equipment Finished:** 4:30 p.m.

- Table Centerpieces
- Kegs
- Batteries
- Tools
- Helium Tank / Balloons
- Highchairs
- Disco Ball
- Coffee Makers / Coffee Supplies
- Aisle Runners
- Ceiling Fabric & White X-Mas Lights
Our sound system is a **in-house system**, meaning the system is set up to where it is wired in both the Hay Barn and Dairy Barn, however, these two systems are exclusive meaning there is a separate system in each room. These systems cannot be linked to one another.

**System Use**
The system was purchased to provide events the ability to play background music during their events and have microphones to make announcements with. The unit was not purchased to handle instrument plug-ins, adapt to outside systems or speak over a noisy & over-excited crowd. For events that expect a higher caliber sound performance (especially auctions), it is recommended that you hire a professional DJ with a professional system of his/her own to manage the audio for your event.

**System Set-Up**
Prior to the start of your event, a staff member will be present to help turn on and show how to use our sound system and make sure that it is working properly. We do not however provide sound technicians to trouble-shoot technical audio issues, coordinate the compatibility of our system with outside equipment or run the system for your event.

### The system includes the following components:

<table>
<thead>
<tr>
<th>Dairy Barn</th>
<th>Hay Barn</th>

**Rolls RM67 Mic/Source Mixer**
- 3 microphone capability
- iPod & laptop hook-up with AUX cord
  *The Pickering Barn only has one 2.5’ AUX cord in each room, if you need another AUX cord, or you need a longer cord, this must be provided by you

**Go to** [www.rolls.com](http://www.rolls.com) **if you are wondering if our system is compatible with your personal equipment or your DJ’s equipment and you need more details on the system.**

- Three XLR mic inputs with switchable phantom power and input padding
- Clip LEDs for each Mic input.
- Mute jack, contact closure to ground main output mute.
- Master Level control.
- Remote Volume jack (connects to an optional 100K ohm potentiometer).
- Stereo Record Out.
- Priority ducking/talk-over for microphone paging, and jukebox.
- Mic Insert jack for adding signal processing to the Mic Inputs.
- Four stereo RCA line/consumer level inputs.
- Master Bass and Treble controls (sources only).
Mackie C200 Speakers
- 2-Way Portable Precision Passive Loudspeaker System
- 500W peak / 200W RMS Power handling at 8 Ω
- 10" long-throw low-frequency transducer with 2" voice coil
- High-output 1.4" titanium compression driver
- Ultra-wide, smooth dispersion via HF horn design
- Integrated Low Impedance Compensated Crossover (LICC) with full driver protection
- Mounted in facility with 10 in Dairy Barn and 6 in Hay Barn

In Dairy Barn Only:
StageBug™ SB5W Wall-mounted stereo direct box
- 2-Channel DI Box
- Fits Single-Gang Electrical Plate
- 2x RCA Inputs
- 1x 3.5mm Stereo TRS Input

Drives Cables up to 300'

Microphones:
- Shure SM58 Wireless Microphone (2 in each room)
- Shure BLX1 H9 Lapel Microphone (clips to shirt) (1 in each room)
Pickering Barn Outdoor Audio Sound System Details

Our outdoor sound system is located within the carriage house and can be accessed from outside through one of the building windows.

System Use:
The outdoor sound system is ideal for background music and amplified announcements. The system includes 4 speakers, 2 wireless microphones and 1 lapel clip-on microphone. The sound system does not have plug-ins for instruments or other devices.

System Set-Up
Prior to the start of your event, a staff member will be present to help turn-on and show how to use our sound system and make sure that it is working properly. We do not however provide sound technicians to trouble-shoot technical audio issues, coordinate the compatibility of our system with outside equipment or run the system for your event.

The system includes the following components:
