

Green Building Consultant List

For the convenience of our applicants, the City of Issaquah has prepared the following list of consultants which may be utilized to assist you in developing a green building. The City places a high priority on protecting the natural environment through sustainable development practices and requires developers to review our [Vision on Sustainable Development](#). The City has not reviewed nor endorses any of these individuals or firms, but simply has aggregated this list for your convenience.

Other Resources:

- **Additional Green Building Consultants:** U.S. Green Building Council (<http://www.usgbc.org/>), International Living Future Institute (<http://living-future.org/>)
- **Built Green Third Party Verification:** Third party verification is required for all Built Green certifications. A third party verifier performs the role of an independent, neutral entity in conducting evaluations/ verifications for use by the Built Green program. More details and a list of third party verifiers can be found on the Built Green [website](#).
