

PARKING		
	ISSUE	RESOLUTION
<b>A</b>	There are 13 on-street parking stalls along College Drive that parents are using to drop off and pickup children from school. The use of these parking stalls creates congestion and impacts the nearby crosswalk that is being used by children walking to school.	The City is still reviewing the possibility of closing this parking area or opportunities to re-orient the parking spaces, highlight the crosswalk or further separate the parking spaces from the crosswalk.
